

DRUG ABUSE RESPONSE TEAM

D.A.R.T

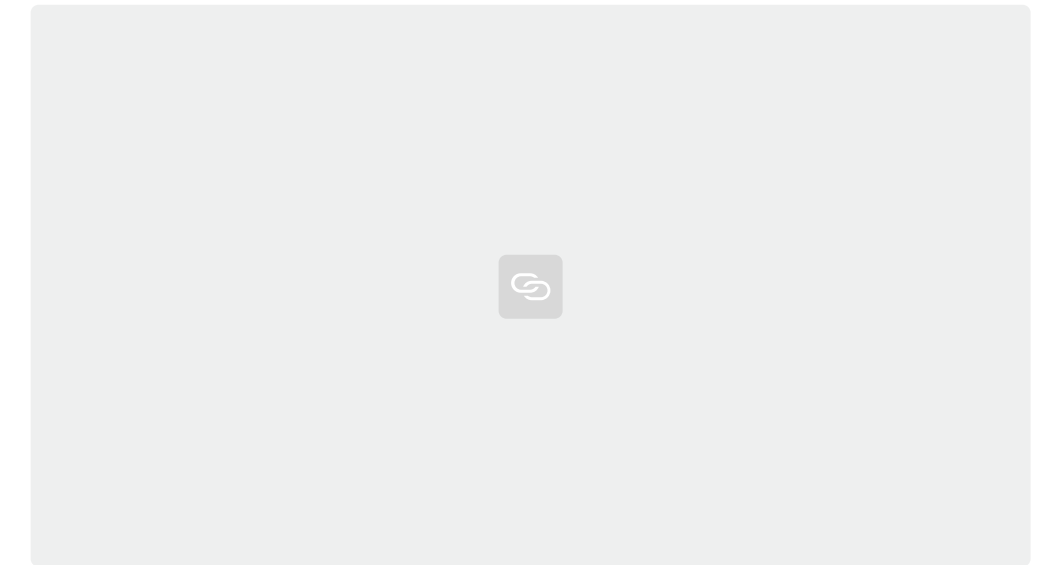

Lucas County, Ohio

DART

OUR STORY

In 2014, Sheriff John Tharp took notice of the increasing number of inmates in the Lucas County Corrections Center withdrawing from opiates. Shortly after, in July of 2014 DART was launched in response to the growing heroin and opioid epidemic.

DART was the first initiative of its kind in our nation. It allows officers responding to an overdose incident to be empowered to offer treatment instead of arrest and incarceration. Today, the DART unit reaches far beyond their traditional roles as first responders and engage directly with linkage to treatment for victims and their families.

OUR GOAL

To raise awareness about the dangers associated with heroin and other drug usage.

OUR MISSION

To stop the profound number of deaths of our friends and loved ones caused by opiate overdoses while helping victims to overcome their addictions. We aim to educate and support the family and friends of these victims

OUR STORY

DRUG ABUSE RESPONSE TEAM

● HOW

Sheriff Tharp met with local fire chiefs in the Toledo-area. They agreed to share information about overdoses with law enforcement to allow Sheriff's deputies the ability to follow up with overdose victims at the hospital.

● D.A.R.T

The 12-member DART team initially provides help to victims, followups are conducted within 72 hours of initial engagement. Clients may remain active with DART for up to 2 years

● GOT

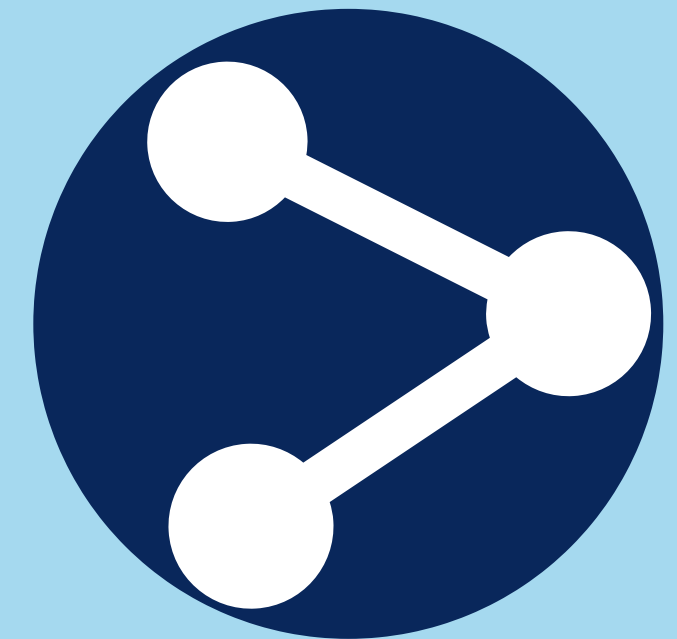

Dart officers drive victims to court and other appointments in donated cars from local auto dealers. People regularly raise money for DART which buys things like equipment

● STARTED

During the first 18 months of the program, from DART's inception in July 2014 until December 2015, the team has encountered 964 victims and at least 1,900 of their family members. Since 2014 to current over 3,350 individuals have been engaged.

DART's Three Steps to Success

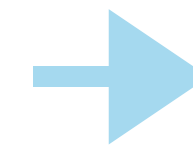

HUMAN CONNECTION

We meet the client where they are the most comfortable. We wear plain clothes, not uniforms and drive donated, unmarked cars. All officers are trained in Motivational Interviewing and Squirrel Logic.

ASSESSMENT

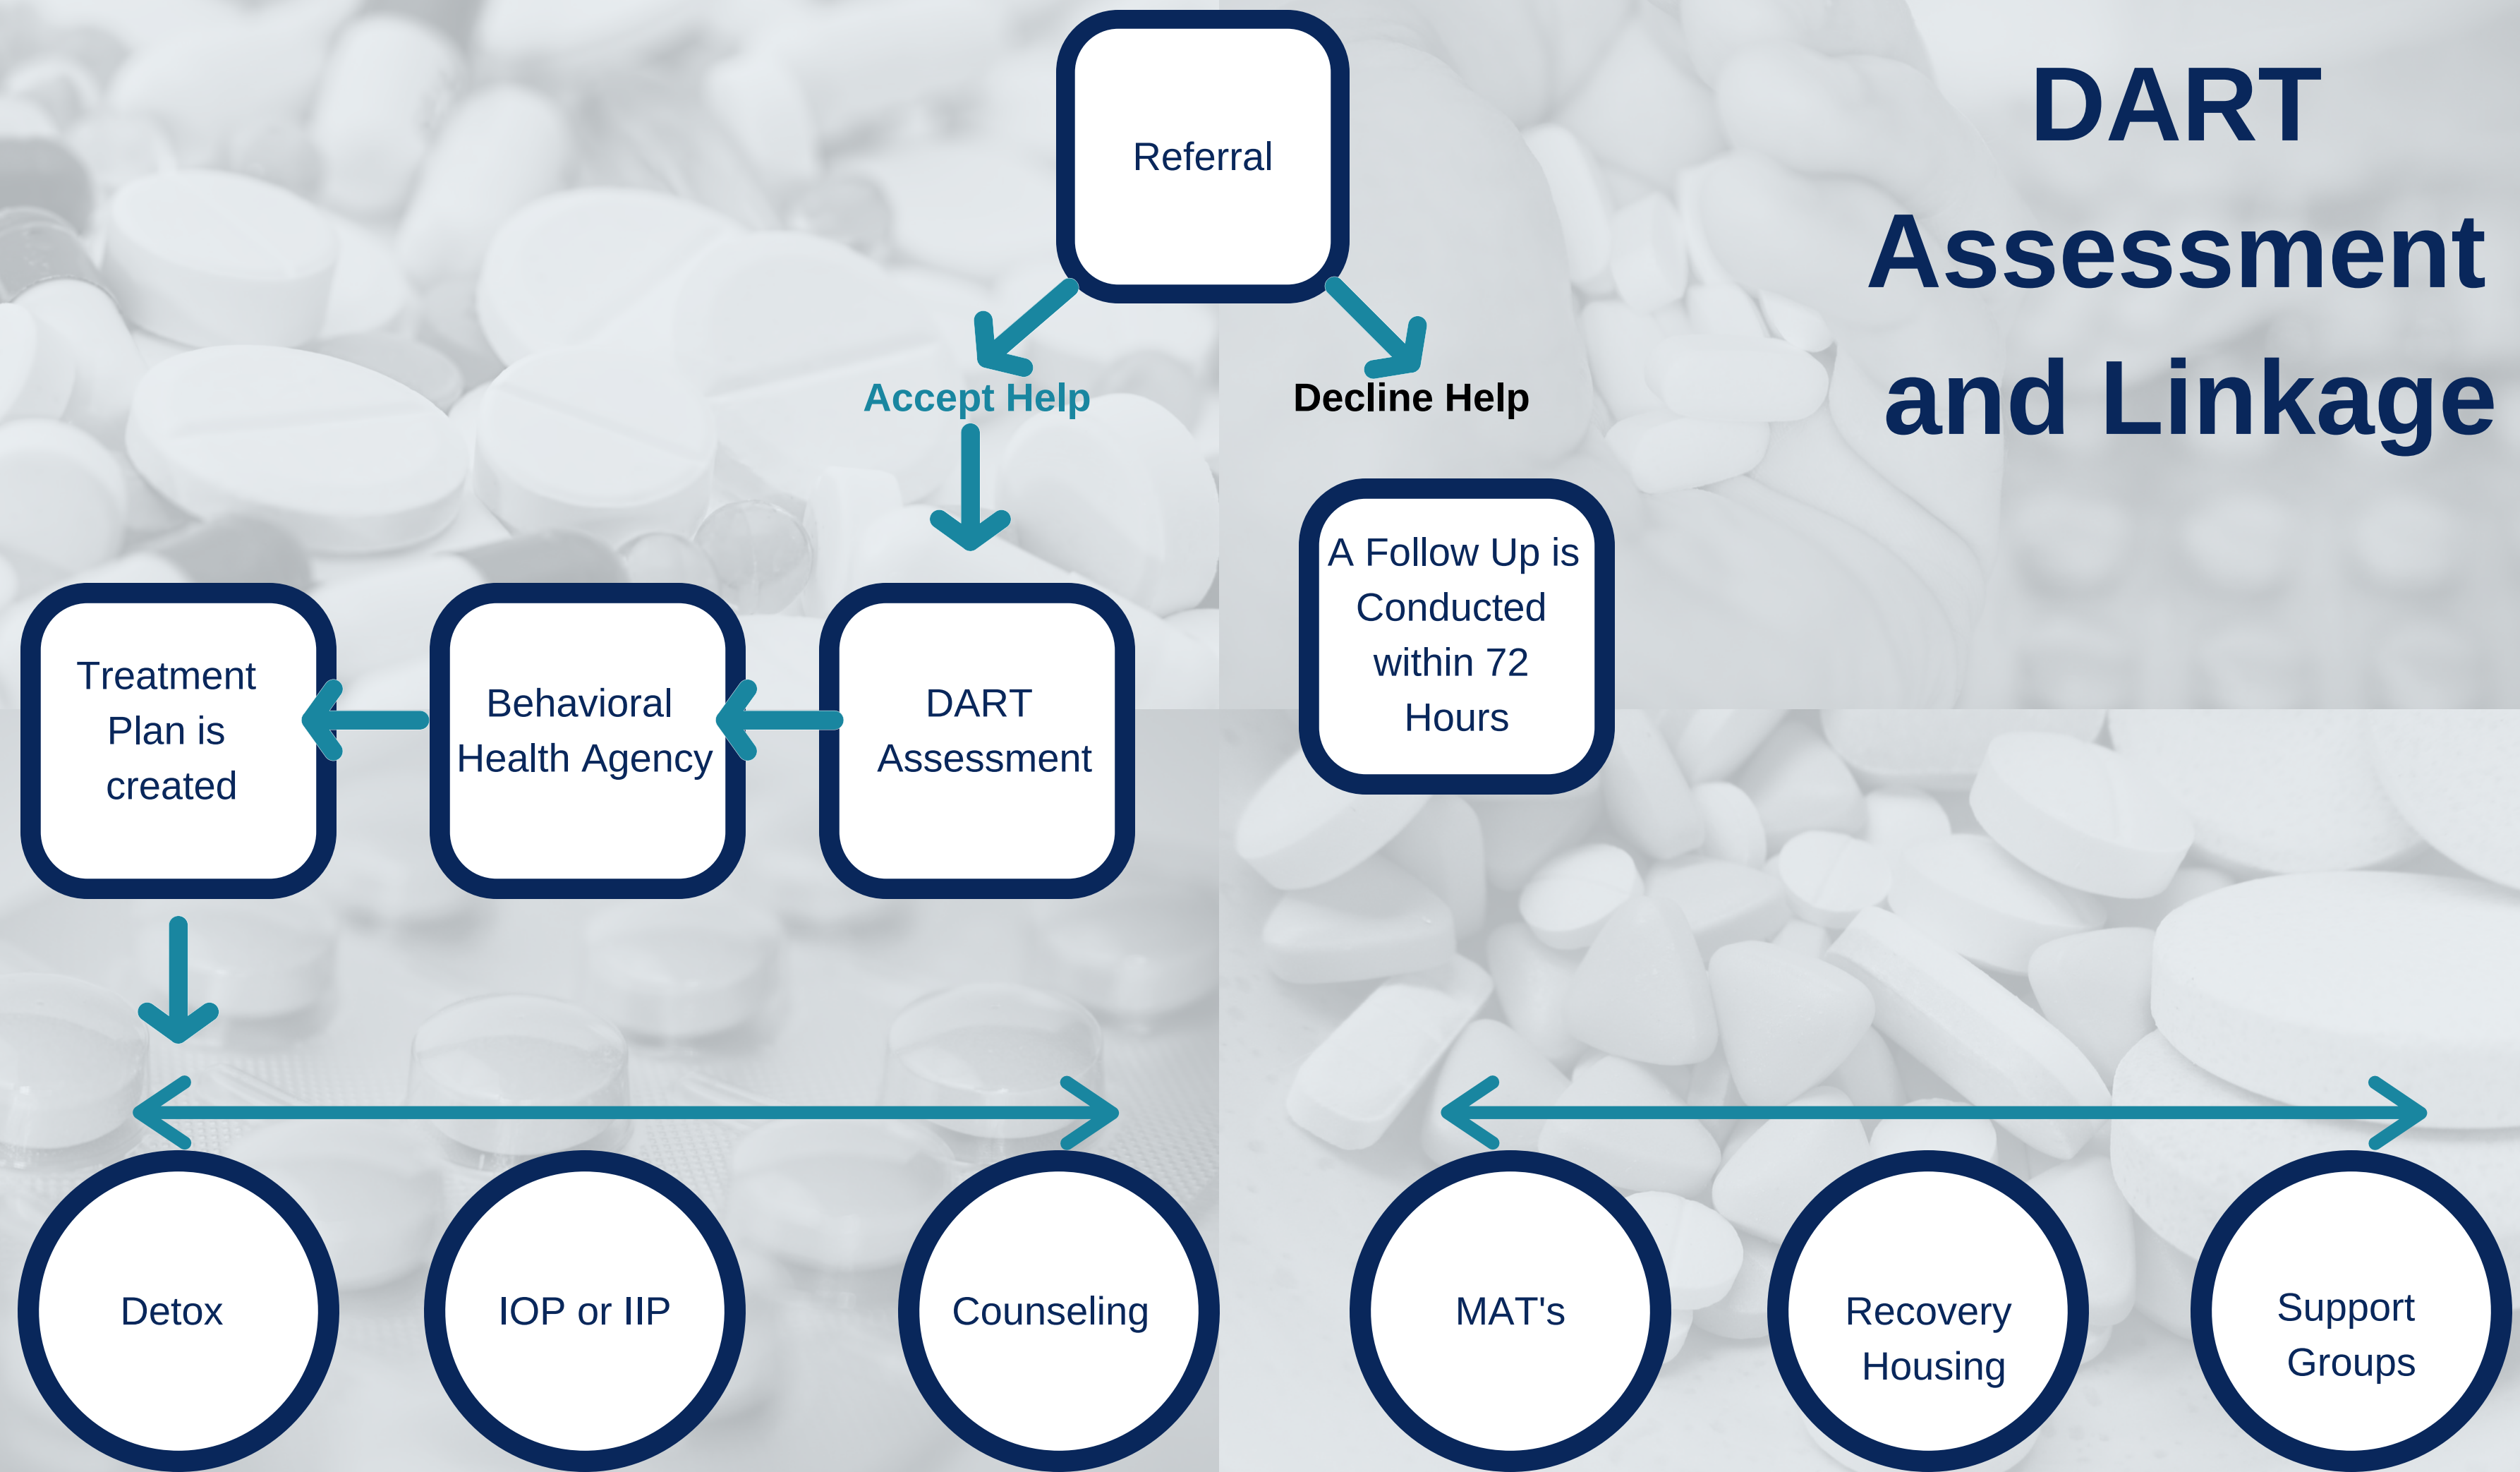

- Informal Assessments
- Calls, home visits and texting

LINKAGE

DART team connects individual to a community-based agency. A treatment plan is created including: detoxification, in-patient and out-patient programs, mental health counseling, Medication Assisted Treatment, Recovery Housing and Support Groups.

DART Assessment and Linkage

Capturing Data

Northwest Ohio Regional Information System (NORIS) - is a highly integrated criminal justice information system linking law enforcement, courts, probation, corrections, and other agencies. Data collected for DART includes: case disposition, prior charges, living arrangements, veteran status, and hospitalizations, current and/or past treatment for behavioral health conditions, substance use and prior interventions. NORIS developed a real-time information feed for the DART Unit to document measures.
